Parenting children with disabilities

Amaze

Understanding the neurodevelopmental pathways

Area of focus:

Autism, ADHD, learning disabilities/developmental delay, tics and Tourette's, FASD, DCD/dyspraxia, social communication differences, sensory processing differences, specific learning difficulties.

Need a diagnosis?

No – could be at any stage from looking into a referral, waiting for assessments or diagnosed.

Open to anyone?

Any parent carers with a child under 18.
Must live in East Sussex or be registered with a GP in East Sussex.

How is it delivered?

Online, 3-hour workshop.

What will I learn about?

This workshop is ideal for parent carers of children and young people who are awaiting assessment or wondering whether they are on the right track. We aim to answer your questions about the diagnostic criteria and how the assessment process works. We will also explore less obvious traits as well as looking at factors that can make diagnosis more complex.

How much will it cost?

Free

Who presents the training?

Run by two facilitators including one Amaze worker and one facilitator with lived experience.

How can I book or find out more?

You will need to register with the Amaze Family Training and Navigation Service. You can register by completing this online form and selecting training as the service you are interested in: https://webforms.dizions.co.uk/amaze/family-support-referral

Website: https://amazesussex.org.uk/nd-family-support/

Amaze

Understanding neurodiversity for parent carers of children primary age or younger

Area of focus:

Autism, ADHD, learning disabilities/developmental delay, tics and Tourette's, FASD, DCD/dyspraxia, social communication differences, sensory processing differences, specific learning difficulties.

Need a diagnosis?

No – could be at any stage from looking into a referral, waiting for assessments or diagnosed.

Open to anyone?

Any parent carers with a child of primary age or younger.
Must live in East Sussex or be registered with a GP in East Sussex.

How is it delivered?

Online, 3-hour workshop.

What will I learn about?

We look at some of the key areas that impact neurodivergent children and their families. Topics include anxiety, emotions, distressed behaviour, sensory differences, double empathy, rejection sensitivity and executive function. We will also spend a little time on strategies that may help family life.

How much will it cost?

Free

Who presents the training?

The Parenting Team

Early Bird + (National Autistic Society) 4-9 years

Area of focus:

Autism

Need a diagnosis?

Yes, or on the diagnostic pathway.

Open to anyone?

The EarlyBird plus programme is a 7–8-week journey for parents and carers of children aged 4-9 navigating the autism pathway. Parents can also invite a professional who works closely with their child.

How is it delivered?

Online, through MS Teams.

What will I learn about?

Over the course of the programme, attendees will have an opportunity to discuss and explore:

- building effective communication and interaction skills
- using structured approaches to support their children in different environments
- developing social skills and fostering positive relationships
- understanding and managing behaviours in a supportive way
- practical strategies for collaborative problem-solving

Each family and professional will receive a EarlyBird Plus programme book to support continued learning beyond the sessions.

CAMHS
Psychoeducation group

Area of focus:

ADHD

Need a diagnosis?

Yes

Open to anyone?

Parent carers of children aged 6 to 18 who have received a diagnosis of ADHD and are known to the CAMHS NDP team and want to explore options for medication.

How is it delivered?

Online, group workshop.

What will I learn about?

Information about ADHD, strategies to support young people with a diagnosis of ADHD with an emphasis on promoting a neuroaffirmative self-image for young people. Information about ADHD treatment and information to support making an informed decision in relation to ADHD medication. Sign posting to local supports available in the area.

Parents will need to complete health screening following the group if they wish to explore ADHD medication for their child and additional health checks may be requested before booking in-person clinic appointment to discuss ADHD medication further.

How much will it cost?

Free

Who presents the training?

Run by a specialist nurse from the CAMHS NDP team.

How can I book or find out more?

Invitation only. Details will be sent to you on how to book when you receive your diagnosis letter.

Organisations in this directory:

Amaze

Amaze is a charity that gives information, advice and support to families of children and young people with special educational needs and disabilities (SEND) in Brighton & Hove and East Sussex. Their ND Family Support Service is for families with children and young people under 25, before and after assessment for neurodevelopmental differences such as autism, ADHD and tics/Tourette's. Their core offer is ND Family Training and Navigation, and they also offer peer support through parent carer groups and befriending, as well as youth activities that welcome young people with neuro-differences.

https://amazesussex.org.uk/nd-family-support/

CITES

Children's Integrated Therapy and Equipment Service. They are the East Sussex NHS providers of occupational therapy, physiotherapy, and speech and language therapy for children.

https://www.eastsussexchildren.nhs.uk/about/childrens-integrated-therapy-and-equipment-service/

The Parenting Team – East Sussex Family Hubs

The parenting Team is funded by East Sussex County Council. They offer a variety of parent carer training and support sessions such as: Triple P programme, one-off groups, longer courses, and online sessions.

https://familyhubs.eastsussex.gov.uk/activities

CAMHS

CAMHS Neurodevelopmental Service provides diagnostic assessments of neurodevelopmental conditions in children. They undertake the assessment and diagnosis of ADHD for ages 6-18 and autism for ages 11-18. This is known as the Neurodevelopmental Team (NDT).

https://www.sussexcamhs.nhs.uk/our-services/service-finder/neurodevelopmental-service-children-and-young-people

MHSTs

The East Sussex Mental Health Support Teams (MHSTs) provide short-term support for children and young people affected by mild to moderate mental health needs. Education Mental Health Practitioners (EMHPs) deliver the evidence-based interventions. They are East Sussex County Council teams with close links to the NHS
